| AI Intern | India |
| – Developed a production-ready GenAI application using Python, FastAPI, WebSockets, and PostgreSQL . | |
| – Built LLM-powered agentic workflows using LangChain and LangGraph for tool orchestration and context management. | |
| – Integrated Whisper STT, Sarvam LLM, RAG, and TTS for real-time multimodal conversational AI. | |
| •IHB LIMITED | May'25-Jun'25 |
| Product and Data Intern | India |
| – Collaborated with engineering and operations teams to translate business requirements into data-driven dashboards. | |
| – Developed Power BI dashboards with 10+ KPIs to analyze district-wise LPG demand and consumption trends. | |
| – Documented data workflows and enhanced dashboard insights based on stakeholder feedback. | |

PERSONAL PROJECTS

- | | |
|--|------|
| •BHRAMAN AI 🔄 | 2026 |
| AI-powered multi-agent travel planner for end-to-end trip planning and recommendations | |
| – Built an agentic travel planning system with a conversational interface for personalized, end-to-end trip planning. | |
| – Engineered a multi-agent GenAI pipeline using LangGraph/LangChain for LLM orchestration and tool-calling. | |
| – Integrated 6+ real-time APIs via MCP servers for flights, hotels, weather, activities, and currency data. | |
| – Developed a scalable Node.js/TypeScript backend with MongoDB for persistent, stateful agent workflows. | |
| •RUBIK'S CUBE SOLVER 🔄 | 2025 |
| Rubik's Cube Solver using Korf's IDA Algorithm | |
| – Implemented a Rubik's Cube solver in C++ using 3D-array, 1D-array, and bitboard representations. | |
| – Applied OOP concepts including inheritance, virtual functions, and operator overloading. | |
| – Implemented BFS, DFS, IDDFS, and Korf's IDA* with pattern database optimization. | |

TECHNICAL SKILLS

Languages: C++, Python, SQL, JavaScript, TypeScript
